

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of special interests controlling the airways.

Sinclair's misuse of the public airwaves, that they are aloud to use for free, is not only unethical it is also criminal. The laws that govern these stations are there to prevent this kind of abuse and to insure that the stations use the airwaves to serve the public interest.

In a time when a station can get fined for indecent content how is it possible that Sinclair can get away with such an abuse of power. These self-serving, PARTISAN actions are far more dangerous than Janet Jackson's breast being shown on TV. Infact the entire Jackson family dancing naked on my TV would be less dangerous.

The license renewal process needs to involve more than a returned postcard. Abuse of the law, as well as the best interest of the public that support these airwaves should be punished. Thank you.
